		E-mail: <b>dogbreedingvet@yahoo.com</b>

I hereby certify that the animal examined is the animal described on this application. I understand that by submitting these results to the OFA, the results will be released to the public

Signature of owner or authorized representative Sherita Tabner

**A photocopy of the test result is required to process this application.**

**Veterinary Instructions**

The Brainstem Auditory Evoked Response (BAER) test is the only accepted method of diagnosis. Bone stimulation transducer may be used in addition when conduction deafness is suspected. Puppies must be at least 35 days old. OFA recommends this test be performed by board certified veterinary neurologists, but will accept test results from experienced veterinarians, neuroscience professionals, and audiologists. One test suffices for the lifetime of the animal.

*Bilateral hearing passes the test. Unilateral or bilateral deafness fails.*

Hearing (Normal)       Equivocal       Deaf      \_\_\_\_\_ Bilateral      \_\_\_\_\_ Unilateral

I certify that the above result is valid for this animal

**Microchip/tattoo Verification:**  I DID verify on this dog       I DID (verify on all puppies on attached litter form)       I DID NOT verify
